During the third quarter of 2023, total volume decreased $4.5 \%$ to 6.5 million nine-liter cases. The contraction is in good part explained by a $23.5 \%$ year-on-year volume decrease in Mexico primarily due to setbacks in the non-alcoholic category, alongside a market contraction and a $3.2 \%$ year-on-year volume decrease in the Rest of the World ("RoW") region, which was mainly impacted by the economic slowdown in EMEA and macroeconomic challenges in LatAm. This decrease was partially offset by a $6.8 \%$ volume increase in the U.S. and Canada region, mainly driven by the resilient performance of our super and ultra-premium tequila brands.

## Profitability and financial performance

Gross profit during the third quarter of 2023 decreased 18.7\% over the same period in 2022 to $\mathrm{P} \$ 5,068$ million pesos. Gross margin was $48.1 \%$ for the third quarter of 2023 compared to $54.1 \%$ for the third quarter of 2022. The gross margin decrease was primarily due to foreign currency effects caused by the appreciation of the Mexican peso against the U.S. dollar, and by higher input costs, which reflect the gradual transition through our older inventory produced with higher-cost materials. This was partially offset by price increases across the regions, a favorable change in the geographic mix and a recent decline in the agave market pricing environment.

Advertising, marketing, and promotion ("AMP") expenses in the third quarter of 2023 increased $21.5 \%$ to $\mathrm{P} \$ 2,689$ million pesos when compared to the third quarter of 2022 . As a percentage of net sales, AMP increased to $25.5 \%$ from $19.2 \%$ in the prior year period. However, on a year-to-date basis, AMP represented $22.9 \%$ of net sales, in line with the Company's full-year guidance of $22 \%$ plus/minus $1 \%$.

Distribution expenses in the third quarter of 2023 decreased $17.8 \%$ to $\mathrm{P} \$ 439$ million pesos when compared to the third quarter of 2022. As a percentage of net sales, distribution expenses decreased to $4.2 \%$ from $4.6 \%$ in the same period of 2022, driven by lower logistics and carrier costs.

Selling and administrative ("SG\&A") expenses increased $15.4 \%$ to $\mathrm{P} \$ 1,064$ million pesos when compared to the third quarter of 2022. As a percentage of net sales, SG\&A expenses increased to $10.1 \%$ from $8.0 \%$ in the same period of 2022, driven by a decline in net sales and overall inflationary pressures impacting the cost structure.

Operating income during the third quarter of 2023 decreased $65.6 \%$ to $\mathrm{P} \$ 892$ million pesos compared to the same period of 2022. Operating margin decreased to $8.5 \%$ compared to $22.5 \%$ in the same prior year period.

EBITDA in the third quarter of 2023 decreased $58.8 \%$ to $\mathrm{P} \$ 1,159$ million pesos compared to the third quarter of 2022. The EBITDA margin was $11.0 \%$ for the third quarter of 2023 versus $24.4 \%$ for the third quarter of 2022.

The net financial result was negative $\mathrm{P} \$ 604$ million pesos during the third quarter of 2023 compared to negative $\mathrm{P} \$ 173$ million pesos in the same period of 2022. This increase was mainly driven by a higher year over year foreign exchange loss, as our net cash exposure in U.S. dollars was negatively impacted by the depreciation of the Mexican Peso. In addition, the Company recorded a higher interest expense compared to the same period of the previous year, driven by short-term financing incurred during the first nine-months of 2023. These effects were partially offset by higher interest income, mainly driven by an increase in interest rates.

Consolidated net income in the third quarter of 2023 decreased $88.0 \%$ to $\mathrm{P} \$ 207$ million pesos, compared to $\mathrm{P} \$ 1,720$ million pesos in the third quarter of 2022. Net margin was $2.0 \%$
for the third quarter of 2023, compared to $14.9 \%$ for the third quarter of 2022. EPS was $\mathrm{P} \$ 0.06$ pesos in the third quarter of 2023 versus $\mathrm{P} \$ 0.48$ for the third quarter of 2022.

## Financial position and cash flow

As of September 30, 2023, cash and cash equivalents were P\$4,024 million pesos, and total financial debt was $\mathrm{P} \$ 25,067$ million pesos. During the first nine months of 2023, the Company used net cash from operating activities of $\mathrm{P} \$ 3,572$ million pesos and used $\mathrm{P} \$ 2,423$ million pesos in net investing activities. Net cash used from financing activities was P\$5,790 million pesos for the period ended on September 30, 2023.

## Capital allocation and dividend payment

As announced in the Company's capital allocation program during the annual general ordinary shareholders meeting held on April 28, 2023, a cash dividend payment was made on August 3, 2023 for an amount of $\mathrm{P} \$ 0.49128$ pesos for each outstanding share representing the capital stock of Becle.

## Debt refinancing

The Company has mandated two banks as joint arrangers to refinance its US\$500 million short-term bank debt ( $\sim 34 \%$ of total debt) with a five-year tenor bullet syndicated facility in two-tranches (term and revolving). The Company expects to be able to negotiate and close such refinancing before the end of the fourth quarter of 2023.

## EBITDA

EBITDA is a measure used in the Company's financial analysis that is not recognized under IFRS but is calculated from amounts that derive from the Company's financial statements. We calculate EBITDA as net income plus depreciation and amortization, income tax expense, and interest expense, less interest income, plus foreign exchange gain (loss).

EBITDA is not an IFRS measure of liquidity or performance, nor is EBITDA a recognized financial measure under IFRS. We believe that EBITDA can be useful to facilitate comparisons of operating performance between periods on a combined basis, but these metrics may be calculated differently by other issuers. EBITDA should not be construed as an alternative to (i) net income as an indicator of the Company's operating performance or (ii) cash flow from operating activities as a measure of the Company's liquidity.
